

Professor Panda's Puzzle of Shapes

Professor Panda needs your help! Just as he completed this puzzle, Ollie The Owl stole some of the numbers from inside the shapes. Use your mighty multiplication and division skills, along with Professor Panda's Key (shown below), to help him fill in the missing numbers. Keep in mind that a number placed in a shape may have to be used in more than one equation.

Key: x =

and

÷ =

E
X
A
M
P
L
E

	12		3	4			30	
						180	12	
	15			3				
	6		18			75	3	
					20			
	6		21		10	100	25
